

Mini Project: “KGS Tech Fest 2026 – Event Announcement Page”

“You are a junior web developer at KGS. Your manager has given you the event information below. Convert it into a professional HTML announcement page using only the tags taught today.”

Scenario:

Kaizentrix Global Solutions is conducting a Tech Fest for students. create the official event announcement webpage using only the HTML text-formatting tags you have learned today.

The page should contain:

- Event title
- Different heading levels
- Event introduction
- Important announcements
- Schedule information
- Rules
- Registration information
- Updated/removed information

Tags they MUST use

<h1> to <h6>

<p>

<hr>

<s>

<strike>

<i>

Expected output:

=====

KGS TECH FEST 2026

CODE • CREATE • COMPETE

=====
