RAHUL SHARMA

Software Development Intern

Code • Create • Grow

About Me

Hello! My name is **Rahul Sharma**. I am a **Software Development Intern** interested in *Web Technologies* and *Python Development*.

I enjoy building real-world projects and solving programming problems. I am continuously improving my technical skills.

Continuous Innovation, Global Impact

Internship Details

Company: Kaizentrix Global Solutions

Role: Software Development Intern

Location: Bengaluru

Mode: Offline

Duration: 6 Months

Technical Skills

Frontend Skills

HTML, CSS, JavaScript

Backend Skills

Python, Django, Node.js

Programming Skills

Python Programming, Problem Solving

Database Skills

MySQL, MongoDB

About HTML

HTML is used to create and structure web pages.

HTML is a **markup language**, not a programming language.

Technical Examples

Water Formula: H_2O

Mathematical Expression: $X^2 + Y^2$

Mentor's Message

My mentor always says: Consistency is more important than knowing everything.

A good developer is not someone who knows everything. A good developer knows how to find solutions, learn from mistakes and keep improving.

Internship Progress

Previous Knowledge

~~Only theoretical knowledge~~

~~Classroom knowledge without project experience~~

Current Knowledge

Only theoretical knowledge

Building real-world software projects
